How To Use The KWIC Index To Services

1. From the alphabetical list of key words in the KEY WORD INDEX, select the key word which most closely relates to the information you require.

NOTE: The keyword index pages are easily visible by the vertical, gray bar shown along the outside edge of each page.

2. A ministry code and page number are printed to the right of each key word entry. Turn to the indicated page to find the required information printed immediately under the ministry code.
3. The following example illustrates how you would obtain information about the Ontario government role in the inspection of raw milk.

Key Words	Ministry Code	Page
dairy		
products, manufacturers, training	AGF	80
see also milk		
DAIRY, FRUIT AND VEGETABLE INDUSTRIES INSPECTION BRANCH	AGF	82
milk		
inspection	AGF	82
see also dairy		

4. In the above example information on milk inspection was obtained by selecting the key word “milk” and turning to page 82 of the ministry section. Note that listed under this key word is a “see also” or cross-reference to the key word “dairy”.
5. Key words beginning with upper case or capital letters denote actual program names such as DAIRY, FRUIT AND VEGETABLE INDUSTRIES INSPECTION BRANCH (see above example).

THE ONTARIO GOVERNMENT

The three major divisions of parliamentary government in Ontario are the Executive, the Legislative and the Judiciary.

Executive: The Queen, represented by the Lieutenant Governor, is the nominal executive and head of state. The Premier and Ministers of the Crown (Cabinet) form the active executive, formulate government policy and administer its programs.

The basic units of the administrative structure headed by the office of the Premier are 20 ministries (e.g., Education and Training, Health, Environment and Energy), each responsible to a Minister in Cabinet.

Legislative: The legislative function is the responsibility of the Legislative Assembly composed of elected members, including the Premier and other Ministers. The Assembly performs three main functions: legislative - enacts, amends and repeals legislation; financial - authorizes the imposition of taxes and reviews expenditure estimates; critical - discusses and criticizes policies put forward by the Executive.

Judiciary: The judiciary administers justice by adjudicating civil and criminal disputes through the Ontario courts system constituted by provincial statute. Judges of the Ontario Court (Provincial Division) are appointed provincially by the Lieutenant Governor In Council. Judges of the Ontario Court (General Division) are appointed federally by the Governor General In Council. Courts administration is the responsibility of the Ministry of the Attorney General.

The **Leasing Services Branch** (327-2696) is responsible for the Government's province-wide leasing **accommodation** and administrative program for all ministries and many government-sponsored bodies. Its primary concerns are to negotiate the acquisition of leased space at competitive rates on a timely basis, to coordinate lease projects from their initiation to the occupation of facilities by the client ministry, to finalize lease documents so as to avoid legal entanglements, to administer leased space and lease-purchase agreements and to provide lease advisory services as requested.

The **Central Operations Branch** (327-2661) consists of seven sections. Program Planning and Advisory Services provides managerial, technical and operational services in support of the division's program planning and delivery, policy and procedure development, training and staff development. The Program Support Section furnishes centralized financial, administrative and operational services (including food services coordination, and **parking** administration). The Space Management Section provides space allocations and planning and monitors space supply/demand requirements. The Elevating Devices Section supplies equipment assessment, maintenance and **elevator** design services. The **Corporate Relocation Management** section provides coordination, inspection, consultation and the implementation of local and inter-city office relocations. The Energy Management Section's objective is to meet the provincial government's target of a 20% energy improvement efficiency by the year 2000. The Systems Development Unit supports the development and implementation of the division's information technology planning and development initiatives.

The Management Board Secretariat ensures the division's responsiveness to client ministries' accommodation needs by placing responsibility in four regions (Toronto, Eastern, Southwestern and Northern) which oversee the operations of district and area offices.

Regional and District staff have responsibility for the operation, maintenance and repair of building structures, heating, ventilation, air-conditioning and electrical systems. Cleaning, **security**, grounds maintenance (**horticultural** service) and common administrative services in consolidated government office buildings within the appropriate geographic area are provided by the staff. They also administer **tendering**, supervision of construction of capital projects, and alterations and improvements for both leased and government-owned buildings.

By offering guidance and counselling to other ministries, contractors and service suppliers, regional and district office staff develop a closer communications link with the program specialists at Queen's Park. The district offices oversee day-to-day cafeteria operations, supplier tendering and contract administration for **food** services in provincial court houses and office buildings occupied by government ministries.

Toronto Region provides operational and maintenance services to the Office of the Lieutenant Governor and the Premier, as well as Cabinet Office and Office of the Assembly.

Regional and district staff also respond to **emergency** situations requiring the protection of staff, the public and government-owned buildings.

LEGISLATIVE ASSEMBLY

The Legislative Assembly, commonly called the House, consists of 130 **Members of Provincial Parliament (MPPs)** elected to represent the people in their constituencies. The Assembly performs legislative, financial and critical functions. It considers proposals for **legislation or bills**; enacts, amends and repeals legislation; authorizes the collection of funds from the people of Ontario; and criticizes the policies put forth by the Premier and the Cabinet. As the presiding officer, the Speaker of the Assembly is responsible for both the policy and operations of the Legislature. The Clerk of the Assembly, in the capacity of principal permanent officer, provides the Speaker and MPPs with procedural advice.

Another important feature of the Assembly, designed to enhance the legislative process, is the committee system. Three types of committees, commonly known as Standing Committees, Select Committees and the Committee of the Whole House, review legislation, scrutinize budget estimates, and undertake special studies or investigations.

Standing Committees, composed of Members drawn from each political party, are created by the standing orders and given specific areas of jurisdiction. Committees meet while the Legislative Assembly is in session, during adjournments and recesses, and report from time to time on matters referred to them.

Select Committees are appointed on an ad hoc basis by the Legislative Assembly to inquire into specific issues. A Select Committee composed of members from each political party is dissolved once its task is completed.

Committee of the Whole House refers to the Legislative Assembly when it meets in the Legislative Chamber as a committee to consider matters such as bills after they have received second reading. The Deputy Speaker who is also the Chair of the Committee of the Whole House presides over this committee.

Information on select and standing committees may be obtained from the Committees Branch, Room 1405, Whitney Block, Queen's Park, Toronto M7A 1A2 (416-325-3500).

An estimated 80% to 85% of eligible acreage in Ontario is covered by the plans.

The plans are designed to provide each insured with a guaranteed revenue per acre. For each commodity covered, the level of price support in a given year is equal to 80% of the 15 year moving average market price in a base period, indexed for changes in costs. Programs are cost shared by producers, the province and the federal government. Premiums are set so that over time total premiums collected will equal total pay-outs to the industry.

Market Revenue **Insurance** plans are administered by the Crop Insurance and Stabilization Division. General policy for all covered grains and oilseeds is set by the National GRIP Committee which is comprised of producers and provincial and federal officials.

NATIONAL TRIPARTITE PRICE STABILIZATION PROGRAMS

801 Bay St., 5th Flr.

Toronto M7A 1B7

416-326-3276

National Tripartite Price Stabilization Programs (NTSP) are available to red **meat** producers (beef, hogs, and lambs); and producers of apples, coloured beans, honey and onions, to provide assistance during periods of low prices.

All plans are **commodity** specific and based on a price support and deficiency payment (support price minus market price). The deficiency payment in a given period is made on the insured's marketed output during that period.

Price supports are based on either a guaranteed margin (industry unit cash costs in the current period plus a historic margin), or a moving average price indexed for changes in costs. Programs are funded using premiums. **Insurance** premiums are cost shared equally by producers, provinces, and the federal government. Premiums are set so that the plans are actuarially sound.

NTSP is administered by the Crop Insurance and Stabilization Division. General policy is set by a NTSP Committee which is comprised of producers and provincial and federal officials. Generally, each commodity has a separate committee.

ONTARIO COURT (PROVINCIAL DIVISION)

Matters under the Provincial Offences Act are presided over by provincial judges and Justices of the Peace who render the final disposition for **offences** under the Statutes of Ontario and **municipal** by-laws, including parking infractions.

The **Provincial Offences Act** covers the **prosecution** of all provincial offences (e.g. those under the **Highway Traffic Act**) and municipal by-laws, including parking infractions. This Act provides a procedure for dealing with minor offences. The person charged may choose one of three options: a payment out of court, a plea of guilty with explanation or a plea of not guilty and a request for trial. The Act also provides for proceedings to be brought to **court** for more serious offences.

Inquiries about payment of **parking infractions** issued by municipal officers should be directed to the appropriate municipal office. Parking infractions are payable at the municipal office or any chartered bank in the province.

For inquiries on payment of **fin**es following conviction and **driver licence** suspension for non-payment of fines, call the Fine Enforcement Office in Toronto, 327-5675.

The Provincial Offences Court holds sittings on a regular basis at approximately 149 locations throughout the province. Addresses are the same as for the Ontario Court (Provincial Division), and can be found under Ontario Courts, Ministry of the Attorney General.

ONTARIO COURT (PROVINCIAL DIVISION)

UNIFIED FAMILY COURT

Judicial District of Hamilton-Wentworth

55 Main St. W.

Hamilton L8P 1H4

905-525-1550

The Unified Family Court, Judicial District of Hamilton-Wentworth, was established in 1977, in response to recommendations by the federal and Ontario law reform commissions, as a pilot project for future development in other areas of Ontario. Replacing the former Provincial Court (Family Division) of Hamilton-Wentworth, the Unified Family Court has exclusive, original jurisdiction over family matters as set out in the Courts of Justice Act, 1984, Part III. The court is designed to remedy problems, assumed to be the product of the existing court system, by unifying the exercise of jurisdiction in all **family** law matters. Court objectives relate to the interests of individual families and the state. For families, the system aims to lessen feelings of confusion, decrease costs, reduce delay and inconvenience, and provide a comprehensive, equitable, understandable and durable legal resolution. For the state, the system aims to decrease the court, legal and welfare costs of resolving family disputes; to preserve and strengthen the family by helping spouses accept their responsibilities; and to promote conditions which encourage respect for the law and the courts. Attached to and forming part of the Unified Family Court is a conciliation service, which mediates between parties to resolve issues of custody and access, support and property issues.

ONTARIO COURT OF JUSTICE (PROVINCIAL DIVISION)

Chief Judge's Office

1 Queen St. E., Ste. 2600

P. O. Box 91

Toronto M5C 2W5

416-327-5660

The Ontario Court (Provincial Division) has been created out of a merger of the former Provincial Court (Criminal Division), the Provincial Court (Family Division) and the Provincial Offences Court.

On its criminal law side, the court renders the final disposition in approximately 95 per cent of all matters under the **Criminal Code of Canada** and other federal statutes. This includes prosecutions of **young offenders** (persons charged with **criminal** or other federal offences allegedly committed while under eighteen years of age).

Persons accused of indictable offences that are neither within the absolute jurisdiction of a provincial judge nor customarily tried before the Ontario Court of Justice (General Division) may elect to be tried before a provincial judge, or a judge of the General Division

sitting alone, or a judge of the General Division sitting with a jury. For **bail** procedures to release a person from custody, contact a justice of the peace at the appropriate **court** office or branch office or, in Toronto, the Bail Office at 327- 5187.

The Ontario Court (Provincial Division) also renders final disposition for **offences** under the statutes and regulations of Ontario and municipal by-laws, excluding parking infractions. These proceedings are conducted before a provincial judge or a justice of the peace. The **Provincial Offences Act** governs the procedure for the **prosecution** of all provincial offences (such as under the **Highway Traffic Act** or the **Liquor Control Act**) and of offences under municipal by-law, excluding parking infractions. A person charged may choose one of three options: payment out of court; a plea of not guilty; or a plea of guilty with an explanation. The Act also provides for proceedings to be brought to court for more serious offences. (Parking infractions continue to fall under the procedure prescribed by the Summary Convictions Act, for the present.)

Inquiries about payment of **parking tags** issued by municipal police should be directed to the local police, since procedures vary throughout the province. Parking tags issued by the Metropolitan Toronto Police are payable at the municipal office or any bank in the province.

For inquiries on payment of **fines** following conviction and **driver's licence** suspension for nonpayment of fines call the Ontario Court (Provincial Division); in Toronto, call 327-5675.

The Ontario Court (Provincial Division) also deals with the following aspects of family law in every county, district or judicial district except for the Judicial District of Hamilton-Wentworth (where these domestic relations matters are part of the jurisdiction of the Unified Family Court): custody of and access to **children** and enforcement of custody and access orders (whether made in or out of Ontario) under the Children's Law Reform Act; **support** orders for spouses, children and destitute parents under the Family Law Act; enforcement of support orders made in Ontario and in reciprocating states under the family rules of the Ontario Court (Provincial Division) and the **Reciprocal Enforcement of Maintenance Orders Act**; protection of neglected and abused children, secure treatment of children with mental disorders and **adoption** under the **Child and Family Services Act**; review of certain decisions of the Registrar General of Vital Statistics relating to applications for change of **name** under the **Change of Name Act**; and dispensing with parental consent to **marriage** of minors over the age of sixteen years under the **Marriage Act**.

Provincial judges and justices of the peace perform civil marriages (in Toronto, Monday to Friday at 327-5826) by special appointment only, to be made in person and in advance.

There is at least one court office in each county, district or judicial district. The Ontario Court (Provincial Division) holds sittings on a regular basis at approximately 150 locations throughout the province. For a list of court addresses, see Ontario Courts, Ministry of Attorney General.

ONTARIO COURTS

Ontario is divided into eight territorial divisions called regions for judicial purposes, each headed by a Regional Director and contain a number of administrative areas that parallel county, district or regional municipal boundaries.

A list of **court** offices contained in each region appears below. Court offices are also listed in the blue pages of all telephone directories.

Court names are in the process of being changed from: Supreme, District and Surrogate Courts to Ontario Court (General Division); Provincial Court (Criminal Division and Family Division) to Ontario Court (Provincial Division); Provincial Court (Civil Division) Small Claims Court to Ontario Courts (General Division) Small Claims Court.

Ontario Human Rights Code, 1981

MINISTRY OF COMMUNITY AND SOCIAL SERVICES

**Hepburn Block, 80 Grosvenor St.
Queen's Park, Toronto M7A 1E9**

The Ministry of Community and Social Services, established in 1930 as the Department of Public Welfare, was formed as a result of the Ross Commission on Public Welfare. The Old Age Pensions, Mother's Allowance and Children's Aid branches previously administered by the Provincial Secretary, and the Unemployment Relief Branch from the Department of Labour were amalgamated under the new department. In 1967, the name was changed to the Department of Social and Family Services and, in 1972, it became the Ministry of Community and Social Services.

In 1974, the Ministry acquired the Mental Retardation Program under the Developmental Services Act from the Ministry of Health. The children's services programs were transferred from the Ministries of Health, Correctional Services and the Attorney General in 1977. In June, 1989, a new division was formed to coordinate the programs for elderly and physically disabled people who require long term care. This division reports jointly to the Ministry of Health and the Ministry of Community and Social Services.

The current trend is to encourage and support community programs enabling physically and developmentally handicapped persons and elderly citizens to live independently. Ministry-operated and funded programs are moving towards small, community residential settings with local support networks.

Administration of Ministry funded and direct-delivery programs across the province is decentralized to area offices.

PERSONAL PROPERTY SECURITY REGISTRATION BRANCH

393 University Ave., 3rd Flr.

Toronto M7A 2H6

416-325-8847

The branch manages the **Personal Property Security Registration System (PPSR)**, and administers the **Personal Property Security Act (PPSA)**, and the **Repair and Storage Liens Act (RSLA)**.

The PPSR System provides a registration function whereby a person who **loans** money and takes personal property (e.g., a **motor vehicle**) as collateral for the loan can register notice of the **security agreement** through the registration of a **financing statement**. In addition, repairers and storers of goods who have returned the goods to the owners before being paid can register notice of their non-possessory **liens** through the registration of a claim for lien. A registration can be submitted by mail to the Central Registration Branch or in person to any one of the 49 PPSR branch offices listed under this Ministry's Real Property Registration Branch entry.

PPSR now permits preauthorized clients with appropriate computer technology to file their registrations electronically instead of by paper. The branch also allows these clients to have limited access to the PPSR database to conduct their own searches from the convenience of their office.

The PPSR System also provides an enquiry service so that the people can determine, when buying **personal property** or accepting it for security as collateral for a loan, whether a notice of security interest or non-possessory lien has been registered against the property (i.e. whether the owner has previously pledged the property as security or owes for repairs or storage of the property).

Together with the MTO, the PPSR Branch now offers the Used Vehicle Information Package (UVIP) to members of the public. The UVIP's provide members of the public with Ontario lien information, Ontario vehicle registration information and red book value on which provincial sales tax is based.

The Personal Property Security Registration Branch **publishes** the Personal Security Registration and Enquiry Guide which provides registration and enquiry information, A Consumer's Guide to the Personal Property Security Registration System and A Guide to the Repair and Storage Liens Act. The processing of both applications for first registration under the Land Titles Act and the Certification of Titles Acts and **Condominium** plans approval has also been decentralized and is now performed in the individual Land Registry Offices.

The matter is then referred to the Chair of the two boards, who establish a joint board for the hearing. The Joint board's decision can be varied or rescinded only by the Lieutenant-Governor-in-Council or, on a question of law, may be appealed to the Divisional Court.

This branch administers the **Gasoline Tax Act** (gasoline, propane, aviation fuel), the **Fuel Tax Act** (diesel fuel), the **Tobacco Tax Act** (cigarettes, tobacco, cigars) and collects tax on the sale of fuels and tobacco. Collectors (usually wholesalers or distributors) are appointed or registered, and tax refunds are provided, when applicable.

The branch also administers the **Land Transfer Tax Act** and the **Provincial Land Tax Act**.

Land Transfer Tax, which is a tax on individuals or corporations registering **land** or an interest in land in Ontario, consists of one-half of 1 per cent on the first \$55,000, 1 per cent on the next 195,000 and 1.5% on the rest. Additional tax of one-half of 1% applies on residential property over \$400,000. Non-residents of Canada pay 20% tax on restricted land (farm land, recreational land, etc.). Land Transfer Tax must be paid to the Land Registrar before registering a conveyance. Provincial Land Tax is a tax collected from landowners in **unorganized territories**. For property assessments for this tax, contact the closest regional assessment office, listed under the Field Operations Branch.

The branch administers the program that refunds the land transfer tax paid by the first time homebuyers who participate in the **Ontario Home Ownership Savings Plan Program (OHOSP)**. First time homebuyers are entitled to a land transfer tax refund on a graduated scale tied to the price of the home purchased.

The Motor Fuels and Tobacco Tax Branch also administers two acts, which have been repealed, during their phase-out period: the **Succession Duty Act**, and the **Commercial Concentration Tax Act**.

The branch administers the Guaranteed Annual Income System, Ontario Home Ownership Savings Plan, Ontario's Personal Income Tax, which includes Ontario Tax Credits and Ontario Tax Reduction Programs.

The **Guaranteed Annual Income System (GAINS A)** assures qualifying Ontario residents, 65 or over, a set annual income. **Senior citizens** who receive the Old Age Security pension (OAS) and Guaranteed Income Supplement (GIS) will automatically receive GAINS if their annual income falls below the guaranteed level.

The Ontario Home Ownership Savings Plan (OHOSP) assists individuals and couples in the purchase of a first home. Planholders benefit from a return on the funds in a plan, an annual tax credit for qualifying contributions and a Land Transfer Tax refund upon the purchase of a home.

The 1992 Ontario Budget introduced the new **Ontario Property and Sales Tax Credit for Seniors** to be delivered through the federal income tax system. For 1992 and subsequent tax years, seniors may claim a Property and Sales Tax Credit when filing their income tax return.

Ontario Tax Credits consist of the **Property Tax Credit**, the **Sales Tax Credit**, the **Ontario Home Ownership Savings Plan (OHOSP) Tax Credit**, the **Political Contribution Tax Credit** and the **Ontario Investment and Employee Ownership Tax Credit**. The Property and Sales Tax Credits reduce the burden of property and sales tax for people with low to moderate incomes. The Ontario Home Ownership Savings Plan Tax Credit provides incentive for individuals and couples to save toward the purchase of a first home. These three tax credits are refundable. The Political Contribution Tax Credit encourages participation in the political process. The Ontario Investment and Employee Ownership Tax Credit helps to create new sources of capital for eligible small and medium-sized business in Ontario. These two tax credits are non-refundable and serve to reduce Ontario tax payable.

Ontario Tax Reduction reduces or eliminates income tax for low to moderate income taxpayers by allowing a basic tax reduction and by providing a supplemental claim for dependent children and disabled dependants.

Claims for Ontario Tax Credits and Ontario Tax Reduction are made when filing Personal Income Tax returns.

NON-PROFIT HOUSING PROGRAMS**

777 Bay St., 2nd Flr.

Toronto M5G 2E5

The Non-Profit Housing Programs provide a source of moderate cost housing for families, **senior citizens**, childless couples, single persons, and **persons with disabilities**. These programs are designed to allow community-based sponsoring groups to create reasonably-priced **housing**. Eligible sponsors are municipal and private non-profit corporations, non-profit housing cooperatives, churches, service clubs, and other associations.

About 70 percent of the units created are allocated to people who cannot afford suitable accommodation. They pay **rents** based on their incomes (about 25 per cent of gross income) rather than on the size or type of units they require.

Under the **FEDERAL-PROVINCIAL NON-PROFIT HOUSING PROGRAM**, **subsidies** are provided to the community-based sponsors by the provincial government, under a federal-provincial cost-sharing arrangement.

The Ontario Non-Profit Housing Programs are another source of subsidies provided to community-based sponsors by the provincial government. These programs include the 1991 Ontario Non-Profit Housing Program and **JobsOntario Homes**.

The above programs are administered by this Ministry's Regional Housing Programs Offices (See Housing Field Operations). For information, contact the local Regional Housing Programs Office.

HOUSING FIELD OPERATIONS RENT SUPPLEMENT PROGRAM

777 Bay St., 2nd Flr.
Toronto M5G 2E5

The Ontario Housing Corporation (OHC) and its local housing authorities work closely with the private sector in making suitable rental accommodation available for households who pay **rents** according to their incomes.

Under the Rent Supplement Program, OHC pays landlords the difference between the tenants' geared-to-income rents and the full rental rate negotiated between OHC (or the local housing authority) and the landlords.

Prospective **tenants** are chosen from the local **housing** priority list for rent-geared-to-income housing. The landlord meets with local housing authority staff to discuss applications from prospective tenants. The applicant is then advised of the availability of the unit by the local housing authority, and leasing arrangements are made between the landlord and the prospective tenant.

The tenant signs a lease with the landlord who is responsible for the normal landlord/tenant relationships, such as rent collection, maintenance, repairs and services normally offered to all tenants in the building.

For further information, contact the local Regional Housing Programs Office (see Housing Field Operations).

RENT CONTROL PROGRAMS

RENT REGISTRY

415 Yonge St., 19th Flr.
Toronto M5B 2E7
416-326-0923
Fax 416-326-0930

As part of the **Rent Control Act**, 1992, the province-wide Rent Registry records the maximum **rent** for private residential rental units. This process involves annual updating of the rents filed by landlords in accordance with the rent control guideline or as a result of rent setting orders.

Landlords are required to register complexes (other than boarding houses) with 7 or more units by December 1, 1992. **Registration** of complexes with 4 to 6 units will be required at a later date, but may be filed earlier. The rent to be filed is generally the rent charged on July 1, 1985, but in some cases will be the October 1, 1990 rent.

The Registry records, in its computer system, the rent filed by the landlord and any rent orders. The landlord and tenants are notified, and may apply to local Rent Control Offices to correct information or dispute the legality of the registered rent.

The Registry ensures compliance with registration requirements, investigates registered and current rents, and prosecutes offenses. The designated Chief Rent Officer in the Registry will determine whether serious errors occurred in orders from Rent Officers when reconsideration is requested.

Information recorded in the Rent Registry is available from the local Rent Control Office serving the area where the complex is located (see listing under Rent Control Programs).

The program is responsible for the administration and enforcement of the **Employment Standards Act**, **Industrial Standards Act**, **Employment Agencies Act**, and the Ontario Government Fair Wage Schedules.

The Employment Standards Act provides for minimum terms and conditions of **employment**, called employment standards. It sets out the maximum number of hours which can be worked in the day or week; creates a minimum **wage**; requires overtime **pay** of at least one and one-half times the employee's regular rate; and establishes paid public **holidays** and **vacations** with pay. The Act also requires equal pay for equal work; prohibits discrimination on the basis of sex, age or marital status in employer-provided benefit plans; institutes an entitlement to **pregnancy leave** and **parental leave**; forbids lie detector testing; obligates an employer to provide notice of termination or pay in lieu thereof; in certain cases, imposes a separate liability for severance pay; and permits retail store workers to refuse Sunday work under particular circumstances. For information on employment standards, contact the offices listed below.

Under the Industrial Standards Act, employees and employers may jointly request a schedule of **working conditions** for their particular industry. The schedule must be prepared and accepted by both groups and approved by the Ministry, in order to become the standard for that industry or trade in a designated zone. Any properly defined industry may take advantage of the legislation.

The **Fair Wage Schedule** on government contracts ensures that employees working on government projects in the construction, building cleaning and security guard industries receive fair **labour** rates. Contractors are offered a measure of protection from unfair competition based on labour costs when bidding on government contracts. Such contracts contain wage and labour conditions which are applicable to the zone where the work is being carried out, and which must be adhered to by the contractor(s).

The Employment Agencies Act provides for the licensing and regulation of employment agencies in Ontario, with respect to dealings with **job** applicants who use their services to obtain employment. All agencies engaged in "permanent" placement must apply and qualify for a **licence** before undertaking any recruitment activity. For information on any of the above three programs, call 326-7009 or dial toll-free 1-800-387-2965.

The branch participates in the Program for Older Worker Adjustment (POWA), a joint federal/provincial program which provides financial assistance to older workers, age 55 to 64, who lose their jobs because of major permanent layoffs and have no chance of finding new employment.

OCCUPATIONAL HEALTH AND SAFETY BRANCH INDUSTRIAL HEALTH AND SAFETY PROGRAM

400 University Ave., 8th Flr.
Toronto M7A 1T7
 416-326-7770
 Fax 416-326-7761

Established under the **Occupational Health and Safety Act**, the office administers programs designed to reduce the incidence of illness and injury among workers in **industry** and institutions including hospitals and schools. (For the construction and mining industries, see the Construction Health and Safety Program, and the Mining Health and Safety Program).

The office encourages employers and employees to assume primary responsibility for occupational **health** and **safety** programs. Consultation and assistance are provided to recognize, evaluate and control potential problems, and establish ongoing safety programs and internal responsibility systems. Industrial Health and Safety Officers, operating out of 17 area and district offices throughout the province, periodically inspect industrial establishments and logging sites, and investigate refusals to work under unsafe conditions, **deaths** and serious **accidents**. Regional engineers in the district offices review plans for new **buildings** and alterations to existing ones in order to check for occupational health and

safety hazards prior to construction. The head office is responsible for overall program implementation. Industrial Health and Safety Officers and Engineers operate out of the following area and district offices:

This program administers the **Occupational Health and Safety Act** and **Regulations for Mines and Mining Plants**. Open pits, quarries, metallurgical operations, sand, clay, shale and gravel pits, aggregate plants, peat workings and diamond drilling operations are periodically inspected to control occupational **health** and **safety** hazards in the workplace. The branch also carries out **air** sample testing to ensure a safe working environment; investigates **deaths**, serious **accidents** and refusals to perform unsafe work; and consults with labour and management to increase their involvement in identifying and eliminating occupational health and safety hazards. Pre-development plans of new and changing operations are reviewed to check for occupational health and safety hazards before construction.

The Mining Health and Safety Program operates out of ten field offices, listed below.

The Mine Rescue Program trains specialists at each underground mine in **mine** rescue procedures, in the event of a mine fire or disaster. The Mine Rescue training officers maintain a number of stations (listed below), as well as non-staffed substations equipped with breathing apparatus, **fire** fighting equipment, and other emergency equipment and supplies to facilitate an immediate response to any mine emergency.

The Mining Lands Program is responsible for coordinating the Provincial Mining Lands Program, and developing policy and legislation regarding **mineral rights on Crown lands**. Through the **Mining Act**, this section ensures that mineral rights are acquired and maintained in an orderly and equitable manner, so that the economic and social benefits of mineral production may continue to accrue to Ontario residents. Initial mineral rights are normally acquired through **claim staking**, although the Minister may grant discretionary dispositions such as leases and special **Exploratory Licences of Occupation**. Once specified amounts of exploration or development work have been completed, **leases** are granted; following substantial production, applications for **patents** may be granted.

Eight mining divisions, each administered by a Mining Recorder, co-ordinate field delivery of the program. The Mining Recorder maintains a register of recorded unpatented mining claims, assessment work, and information related to mineral rights, and provides a hearings process for disputes regarding mining claims. The Sudbury office assesses technical submissions for credit toward maintaining claims in good standing.

The Mining Recorders are listed under the Field Organization entry.

The Mineral Development and Mine Site Reclamation programs were established to encourage, promote and facilitate the sustained economic development of the province's mineral resources in an environmentally responsible manner.

These programs have four major challenges: to reinforce Ontario's strong competitive advantage in mineral exploration and development; to assist in Ontario's commitment to the protection of the environment; to advocate for a balanced use of Ontario's resources through provincial land-use planning processes; to ensure public **safety** through the **Abandoned Mines Hazard Program** and appropriate closure of operating **mines**.

Two field offices (Kenora/Timmins) listed under the Field Organization entry, provide mineral development and rehabilitation services.

The Sedimentary and Environmental Geology Section, the Precambrian Section, the Mineral Deposits and Field Services Section include: geological, geophysical, and geochemical **surveys**; mineral deposit studies; geochronology studies; and development of new exploration techniques.

These sections include 13 Resident Geologist offices and seven **Drill-Core Libraries** spread across the province from Red Lake in the Northwest to Tweed in the Southeast, in addition to the **Mines and Minerals Information Centre** in Toronto (314-3827). The staff of the Resident Geologist offices are experts on the geology of their individual districts. They attract, encourage and monitor mineral exploration by providing information and consulting services to the mineral exploration industry, to government, and to the public. The Correctional Services Division is headed by an Assistant Deputy Minister with field operations administered by four regional offices located throughout the province. The Correctional Services Division provides management, professional and consultative services to both institutional and community correctional programs for adult and young offenders. As part of its commitment to community corrections, it contracts with private community agencies to provide resource centres for selected adult offenders and open custody and detention for young offenders.

Ministry operations include administration of Ontario's 50 correctional institutions, 18 young offender secure detention and secure custody facilities, and a network of probation and parole services for both adult and young offenders in 131 locations throughout the province. Correctional institutions include jails, detention centres, correctional centres and treatment centres for adult and young offenders. The Ministry currently operates two minimum security camps. One provides adult offenders with exposure to farming and forestry and the other is for young offenders.

Jails and detention centres provide short-term, secure custody for persons awaiting trial or sentencing, being held for immigration hearings or deportation, serving relatively short or intermittent sentences and awaiting transfer to other Ontario correctional institutions and federal institutions. Programs are directed to the relatively short-term needs of offenders and focus primarily on basic educational upgrading and life skills.

Correctional centres provide a variety of programs for longer term offenders in minimum, medium or maximum security settings. Specialized programs are available at the Ontario Correctional Institute and Vanier Centre for Women (Brampton), the Guelph Assessment and Treatment Unit (Guelph Correctional Centre), the Millbrook Correctional Centre, the Rideau Treatment Centre (Rideau Correctional Centre) in Eastern Ontario and the Northern Treatment Centre in Sault Ste. Marie, in the areas of assesment, treatment and research.

Probation and parole officers work closely with all courts of criminal jurisdiction in Ontario and with the Ontario Board of Parole. Probation and parole staff supply pre-sentence, predisposition and progress reports to judges, pre-parole reports to the Ontario Board of Parole; and supervision and assistance to probationers, offenders on parole, young offenders, and former offenders who need assistance after release from correctional institutions. Staff offer counselling and guidance in life skills, alcohol and substance abuse, job search techniques, stress management and interpersonal skills.
